## **Algorics and ADAMAS announce strategic partnership and release of ADAMAS Benchmarking powered by Acuity**

**Algorics provider of innovative clinical analytics solutions to the life sciences industry and ADAMAS Quality Assurance Consultants announce partnership driving next generation auditing best practice**

**Houston, TX, USA, For Immediate Release: 12 June, 2017.**

Algorics, a provider of clinical analytics solutions and software for the global life sciences industry, today announced a partnership with leading life sciences Quality Assurance Consultants, ADAMAS. Under the partnership ADAMAS will make available to clients their comprehensive proprietary audit metrics data via the Acuity platform.

In announcing the partnership, Algorics Chief Commercial Officer Rob Nichols said "There is an increasing requirement of the bio-pharma industry to better understand, and extract value from, the huge volume and variety of increasingly complex data being collected during business as normal. We are delighted that ADAMAS is now able to provide a comprehensive view of data collected from audits allowing their clients to benchmark the quality of their studies against anonymized competitors, thus allowing them to improve the strategic focus of their QA activities".

Dr Patricia Fitzgerald, ADAMAS Chief Executive Officer stated "Provision of the audit metrics and benchmarking data to our clients, is just one example of the ADAMAS ethos for informing our clients decisions, allowing them to achieve the best outcomes when considering their clinical quality assurance strategy."

Algorics and ADAMAS will be demonstrating how Acuity is helping drive next generation auditing at the DIA 2017 Annual Meeting in Chicago, IL from June 18-22 where you can join them at booth 1352.
